
ABS Jets

Providing top quality award winning services around the clock since 2004

ABS Jets operates a fleet of executive jets in the light to super midsize categories, together with one of the largest fleets of Embraer Legacy aircraft in the world.

Our company provides top quality services with the flexibility of 24/7 operations and immediate response to any service request. With a team of 200 employees and international awards we are one of few companies in CEE region which can meet the needs of any business jet customer, on the ground and in the air. Our service portfolio includes: Aircraft Management, Aircraft Maintenance, Executive Handling, Aircraft Sales, Flight Planning, Charter & Brokerage, Travel Management and Consultancy.

With one of the largest fleets of Embraer Legacy 600 aircraft and highly skilled professionals with years of experience, ABS Jets is well poised to professionally handle all of your business aviation needs. Currently ABS Jets operates from two bases located at Prague Airport and Bratislava Airport and provides a comprehensive portfolio of services. There are currently 27 pilots and 12 flight attendants employed at ABS Jets, with 20 pilots and 9 flight attendants for the Embraer Legacy aircraft. In 2012 the company crews safely flew 3430 flight hours within 2160 flights.

Managing privately owned business aircraft is one of the main business activities of ABS Jets since its establishment in 2004. Currently ABS Jets operates a fleet of 8 aircraft commercially, consisting of five Embraer Legacy 600s, one Bombardier Learjet 60XR, one Cessna Citation Bravo, one Embraer Phenom 300. In addition to the above mentioned aircraft, which are under long-term management contracts, the company also manages the aircraft of external domestic and international clients at Prague and Bratislava. The complete ABS Jets fleet consists of a total of 13 aircraft.

Aircraft Maintenance services plays an important role in ABS Jets business activities. The company's highly efficient maintenance services are handled by a team of technicians (with internationally recognized qualifications from recurrent training programs), adhering to precise manufacturer's requirements.

ABS Jets provides Consultancy Services to corporate and individual clients in the field of aircraft purchasing, sales and financing. According to the client's needs, the company consultants guide the client through the complex acquisition process of new or preowned aircraft, assisting with the aircraft selection and all other client requirements.
