
Executive Airlines

Executive Airlines is one of the leading Aircraft operators in Spain

With bases in Barcelona, Madrid and Valencia, our aircraft ranges from a 5-seater CJ1 to 18-seater G550's. We offer a wide range of options for any VIP client.

We now manage more than 20 aircraft. The clientele of Executive Airlines is nothing less than exclusive. Our aircraft have flown to every part of the globe with passengers from the likes of Royalty, Political Dignitaries, Actors and Actresses, Rock Groups, Sports Celebrities and many Senior Business people.

We make every flight exactly what a client would expect it to be and more. We go beyond expectations.

Each aircraft in the fleet is well maintained by highly trained mechanics. Each maintenance revision is strictly observed. That is why our aircraft only go to maintenance centres certified by each aircraft manufacturer.

Our crew members are highly trained and experienced. All of whom will go beyond expectations to meet passengers needs on each and every flight.

Pilot trainings are done as per existing regulations and pilots are sent to Flight Safety International centres all over the globe. Executive Airlines has its own operations department

which handles each and every flights requirements. Running 24/7, the operations department is manned by experienced flight dispatchers.

The Charter Department of Executive Airlines is composed of seasoned personnel with great experience in General Aviation. We should be the first call for any client, be it a broker, operator, individual or business and we are always ready to provide whatever you need.

There is more to talk about and we would be happy to shake your hand and tell you more about ourselves and how we could do business together.
