

Deccan Charters

Total Aviation Solutions within India and Beyond

Deccan Charters is one of India's largest General Aviation Services companies, providing a complete suite of solutions ranging from Corporate Travel and Aircraft Management to Maintenance and Technical Services. Deccan operates a fleet of 11 owned and managed aircraft from 15 operational and engineering bases, giving it the largest geographical footprint among aviation companies within India.

As part of its engineering and maintenance services, Deccan Charters maintains over 50 aircraft and hosts the Bell, Sikorsky and Eurocopter Customer Service Facilities (CSF).

Deccan Charters also provides comprehensive aircraft management solutions. Under the Aircraft Management Program, Deccan takes over the administrative, operational and maintenance related issues that come with aircraft ownership.

Deccan Charters additionally offers an exclusive set of aircraft under its Powerfly program. Powerfly, combines the aviation knowledge and aircraft of Deccan and other partners to provide a one stop nationwide flexible program, this allows you to travel on your schedule via a comprehensive fleet of aircraft, ranging from jets to turboprops and helicopters.
